Dr. Barrow's treatment during an attentive practice of many years is eminently successful in curing Nervous, Mental and Physical Debility, Languor, Depression of Spirits, Painful Dreams, Loss of Appetite, Memory, &c. The Doctor particularly invites those patients whose cases have been neglected or pronounced incurable, to place themselves without delay under his care, assuring them that all that can be accomplished by science, skill, and the successful results of a long practice will be at their service.
He distinctly states that no case will be undertaken unless a permanent cure can be guaranteed. All letters containing the usual consultation fee, $5, and fully describing the case, will be immediately attended to.

WEBSTER
Pure Warm Air
FURNACE.
This new Furnace, having been THOROUGHLY TESTED, for the last five years, in New York, Massachusetts, Connecticut, New Hampshire and Vermont, and in this city the past winter, with the most flattering results, is now offered to the public of Bangor and vicinity with increased confidence in its merits.

THE ADVANTAGES OF THIS FURNACE
consist in its great radiating surface, whereby a large quantity of air is heated to a moderate degree of temperature, and delivered into the rooms with its vitality unimpaired.

Its Quickness of Operation.
A current of warm air issues almost immediately on starting or replenishing the fire, while in most other furnaces no warm air is obtained from them until the thick iron plates or brick walls enclosing them are themselves well heated. To heat a house of eight or ten rooms most furnaces consume from nine to twelve tons of coal, while the Webster Furnace, to do the same work, needs only from four and a half to six and a half tons.

THEIR CONSTRUCTION
is such that the air is kept pure and not burned, and by means of a new patent double case, all the heated air is saved to warm the house above: not a particle of it is wasted in the cellar or allowed to pass off in the smoke pipe.
Those in want of a first class furnace are respectfully invited to call and examine the WEBSTER, and hear what reliable men of this city say who have used them.

THE REPUBLICAN CANDIDATES.

ULYSSES S. GRANT.

The candidate of the Republican party for President has an ancestry which commends him to New England. He is descended through a line of Puritan patriots far back to England. The first one of the Grant Family came from Plymouth in Devonshire in 1630, and settled at Dorchester Mass. From him is descended Ulysses S. Grant, whose father, Jesse Root Grant, was born in Coventry, Conn. In 1799 the father moved into what was then known as the Western Territory, and finally settled down at Clermont, Ohio, on the banks of the Miami, where Ulysses was born the 27th of April 1822. The house in which he was born was a small one-story cottage. His father was a tanner and the son learned the same trade as soon as he was old enough. At the age of sixteen he entered the Military Academy at West Point, and graduated in 1843, receiving a brevet commission as second lieutenant in the Fourth United States Infantry. In 1845, when General Taylor was ordered into Texas, Grant and the regiment to which he was attached formed part of the force, and continued in active service through the Mexican War. He was in all the important battles except that of Buena Vista, was appointed first lieutenant on the field of battle at Molino Del Rey for gallantry, and bretted captain for meritorious conduct at the battle of Chapultepec. In 1848 he married. In 1853 he received his full commission as Captain, but in 1854 resigned it and established himself in civil life near St. Louis, farming, cutting wood and acting as collector. In 1859 he removed to Galena, Illinois, and went into the leather trade with his father. There he was situated, doing a prosperous business, when the news of the attack on Fort Sumpter reached him. Reading the dispatch which brought the intelligence he quietly said, "The government educated me for the army, and although I have served through one war, I am still a little in debt to the government, and willing to discharge the obligation." Raising a company of volunteers he appeared before Governor Yates of Illinois and tendered his services.—The Governor immediately placed him on his staff as mustering officer of volunteers. In June 1861 he entered actual service with the rank of colonel of volunteers, and was so energetic and efficient that he was soon promoted to be brigadier-general. His first service under his brigadier's commission was to march to Ironton, Missouri, to prevent an attack from the rebel Jeff Thompson. Soon after he was placed in command at Cairo, and did some good service in Northern Missouri, at Belmont and Paducah. But the opening of his brilliant military career was the capture of Fort Donnelson in Feb. 1862. This was the first important success in the West and sent joy and hope over the whole country. Grant was then made major-general of volunteers and placed in command of the Middle District of West Tennessee. In April the battle of Shiloh was fought and won. In May of 1863 he struck the rebels at Port Gibson, and fought the series of battles which brought him before the entrenchments of Vicksburg, the surrender of which he received on the 4th of July. His next victory was at Chattanooga Nov. 23. On March 10th 1864, Grant was appointed lieutenant general and placed in command of all the armies of the United States. In May 1864 the final campaign of the rebellion began. The battle of the Wilderness opened the bloodiest fights of the war. Spottsylvania and Cold Harbor followed and in July Petersburg was beleaguered by the Union army. It was not however until April 1865 that the finishing stroke was given the rebellion. On the 12th Lee and his army surrendered to Grant and the war was over. The people felt then that Grant was ordained by divine wisdom for the purpose which he carried out. In 1868 he was elected President of the United States, and Thursday he was nominated for a second term, to which he will be elected in November next.

HENRY WILSON.

The Hon. Henry Wilson of Massachusetts, nominated as the republican candidate for Vice President, was born of very poor parents in Farmington, N. H., Feb. 12, 1818. At the age of ten he was bound to a farmer until he was twenty-one. There he served his time out in the usual employment of a farm hand, getting a few weeks schooling at the district school in the winter season, and finding time in the winter evenings to read all the books that came within his reach. At twenty-one he took his pack on his back and went to Natick, Mass., to learn the shoemaker's trade. He worked at the trade two years and saved some money with which he determined to attend an academy, but the man failing with whom he had deposited his treasure he lost money and chance for education, and was obliged to continue making shoes. He improved himself in a debating society and in reading and writing and general discussion of public matters. In 1840 he took the stump in favor of the election of Harrison and was then elected to the Massachusetts legislature from Natick. In 1845 he went with Whittier to Washington with the remonstrance of Massachusetts against the admission of Texas as a slave state. When the Whig party broke up he became one of the most active organizers of the Free Soil party, in the interest of which he bought and edited for a short time a paper in Boston. He was elected to the Massachusetts Senate, of which he became President. He served in the legislature of his State eight years, the last two as President of the Senate. In 1853 he was a member of the State Constitutional Convention. Ten years he was an active officer of the uniformed militia of Massachusetts. In 1855 he took his seat in the Senate of the United States, superseding Edward Everett, the "cobbler boy", of Natick stepping into the place just filled by the most polished orator and one of the most accomplished scholars in Massachusetts. He has been elected again and again to the Senate, where he is now serving his seventeenth year. He was re-elected last year. In 1861 he raised a regiment and served as its colonel until obliged to resume his congressional duties. He succeeded Benton as chairman of the Military Committee, and held that position when the war came, very fortunately for the country as it proved. Mr. Wilson was one of the first anti-slavery politicians in the country, and continues his steady devotion to the colored race. He has distinguished himself also as an advocate of the enlargement of privileges for the laboring people and improvement of their condition. As a practical, sagacious, pure-minded, honest statesman, Henry Wilson has not his peer in the country.—He has filled his seat in the Senate ably, and his voice has been heard in power in every campaign of importance. To his discreet speeches in New Hampshire and Connecticut we owe much of the success we achieved there in the late elections. In a sketch of his career Harriet Stowe well says: "Thank God [illegible] 37th and 38th Congresses. There born at last got our American Union in that condition which old Solon gave as his ideal of true democracy, [illegible] injury to the whole."

LETTER FROM AUGUSTA.

THE LATE JUDGE WESTON.

AUGUSTA, Maine, June 7th, 1872.

To the Editor of the Whig and Courier:

At the opening of the S. J. Court in this city to-day Hon. J. W. Bradbury addressed the court at considerable length, reviewing the life and public services of Judge Weston, closing by submitting the following resolutions which had been unanimously adopted by the bar, and requested that they be entered upon the record of the court:

Resolved, That the members of the Kennebec bar have received the intelligence of the death of the Hon. Nathan Weston with a sadness that is softened by the belief, that having lived a devoted Christian life here, he has entered upon a happy immortality above.

Resolved, That we record with deep sensibility our profound respect for the memory of the deceased, who was for a long period a member, and for seven years Chief Justice of the Supreme Judicial Court of this State.—During all his long public services upon the bench, as Chief Justice of the Circuit of Common Pleas for the Second Eastern Circuit, while Maine was a part of Massachusetts, as one of the Justices of the then Supreme Judicial Court under the first organization of Maine as a State, and as Chief Justice of this Court, Judge Weston earned and sustained the character of an able, learned and upright judge, commanding the confidence of the people and the regard and affection of his judicial associates, and of the bar.

He presided with ease and dignity, and inspired universal confidence in his integrity, learning and desire to administer justice.

His written opinions contained in the first twenty volumes of the Maine Reports will constitute an enduring memorial of the learning and ability of the venerated and excellent judge.

Resolved, That in the retirement of private life with a memory stored with rare and varied learning, Judge Weston was ever the genial, instructive and interesting companion and friend, and the accomplished, christian gentleman.

Resolved, That as a mark of our respect, the bar will attend the funeral of the deceased.

Resolved, That the foregoing resolutions be, with the permission of the court, entered upon the records thereof.

Resolved, That a copy of these resolutions be presented to the family of the deceased.

Chief Justice Appleton responded, and the court ruled that the resolutions be entered on record.

After which the court adjourned to attend the funeral of the deceased, accompanied by the officers of the court and the bar.

The funeral of Judge Weston took place at 9 o'clock a. m., from St. Mark's (Episcopal) church. The service which consisted of the church ritual, with no sermon, was conducted by the Rector, Rev. Samuel Upjohn.

The bearers were the venerable Allen Lambard, Mayor; Joseph Eveleth and Ex-Mayors, Judge Daniel Williams and Col. J. A. Pettengill.

The audience was largely composed of the older citizens, whose silvery locks remind us that their turn must shortly come.

The remains were deposited in the Cony tomb beside his wife and three daughters.—The venerable Judge is to be the last to find a resting place, and the tomb will now be closed and sealed forever.

The coffin was simple and unadorned save by a cross of flowers and beneath the lid the inscription

NATHAN WESTON.
Born January 7th, 1782,
Died June 4th, 1872.

The funeral was attended by the immediate relatives of the deceased, among whom were his sons Nathan and Mellen.

POLITICAL AND PERSONAL.

Wm. Beers, chief night editor of the Tribune, died Thursday evening of congestion of the brain. He was born in Ireland, and came to this country when 10 years of age, and worked in the Sun office under the Beach management.

One of the significant things connected with Senator Wilson's nomination to the Vice-Presidency is the vast number of despatches of congratulation he receives from workingmen individually. He received many such despatches Friday.

The President was visited by hundreds of persons Friday—all coming to congratulate him on his renomination. The Ohio delegation marched to the White House in a body, and were introduced by Senator Sherman.

A despatch from Cheyenne, Wyoming, denies that Church Howe, U. S. Marshal for the Territory, has absconded with government funds. Mr. Howe will sue the Boston Advertiser, in which the report appeared, for libel.

Mrs. Sarah S. Stafford, after striving twenty-five years to obtain the seven and a half years' pay due her father, who served as a revolutionary naval officer, was accorded the sum, $8000, by the United States Senate on Friday.

A Washington special predicts that Secretary Boutwell will succeed Mr. Wilson in the Senate and Judge Richardson, present Assistant Secretary of the Treasury, will succeed Mr. Boutwell as Secretary.

The Cincinnati Times says that Senator Schurz sees the handwriting on the wall. "If it is Horace Greeley's handwriting," says the Buffalo Commercial Advertiser, "we don't know where is going to find a Daniel who can read it."

The New York Nation remarks: "The truth is that, in the public eye, Mr. Greeley, whether deservedly or not, is surrounded with an atmosphere of low comedy. There is consequently a touch of buffoonery in all celebrations of which he is the central figure." Horace Greeley supported by Tammany, is something more than "low comedy" or "buffoonery."

Rosevelt's speech at the piebald gathering in New York must have grated harshly on Democratic nerves. He admitted that the Ku-Klux law—that *bete noir* of the Bourbons—was not so bad after all; he was not sure, indeed, but that it was necessary for personal security and public peace. The admission is important, and will bear repeating when the Liberal orators get fairly on their legs.

The Tribune having repeatedly asserted that there was much enthusiasm for the Cincinnati ticket among the Germans of California, the San Francisco Abendpost, the ablest and most widely circulated German paper on the Pacific coast, says in its last issue that it does not know of a single German adherent of Greeley either in San Francisco or in all California; and it offers a reward for the names of such Germans as would publicly declare their readiness to support the Cincinnati ticket.

The ratification meeting at Philadelphia, Thursday night, in front of the Union League Club House, was attended by at least 40,000 people, and intense enthusiasm prevailed. A series of resolutions was read endorsing the platform and the nominees of the National and State Conventions. Judge Bingham of Ohio made a telling speech, saying that with the words Grant and Wilson inscribed on their banners the great party of progress and civilization to which they all belong can again achieve a glorious victory. Ex-Governor Bayard of Tennessee, Prof. John M. Langston, Dr. Loring, Gen. Burnside and others spoke at the main stand and the other stands. The meeting was an immense success. A torchlight procession, music, fireworks, illuminations, &c., added brilliancy to the scene.

The Rev. James Freeman Clarke having published a letter in defence of Mr. Sumner's recent course, the Rev. C. A. Bartol sent a note to the Boston Transcript in which he said:

If the clergy are to take a hand in the present many cornered political game, let me lay down my card for Grant, not as the impossible ideal, but best available man—an ox that has done mighty ploughing, though his crib be not clean. Through him the blood of my church and my kindred at last stopped running to waste. I agree with Dr. Clark's care about imputing motives; but our Senator has handled the President too freely, to resent justly an honest opinion of his own.—Which of the two is most "quarreller," egotist, ambitious aspirant, actor from private impulses on a public stage? The issue is made; and who but must make up his mind? Beyond nice lines, about presents and relations in office, the people, with big, half-blind, wide-staring and wet eyes, will be able to see at least Vicksburg, the Wilderness, falling Richmond, the North delivered and the nation saved; and their gratitude will not turn sour at the criticism of idealogists, the men who cannot marry ideas to facts, whom Napoleon despised. The idealist is a different character; no rhetorician, but an incarnation of right and executor of truth.

Col. Forney in the Philadelphia Press, thus refers to the nomination of Senator Wilson: "Henry Wilson for Vice-President points the moral and adorns the story. We should regret the defeat of the patriot Colfax, whose nomination we preferred, if we did not see how well he bears it himself. His telegraphic indorsement of his successful competitor is the evidence of Wilson's availability. The causes that nominated Wilson were irresistible. His life has been one long sacrifice to principle. He never doubted the supreme sequel of the Republican experiment. He was always for peace among common friends. He never quailed in disaster. He was never cruel to his adversaries in defeat. But above and beyond all, he was ever the earnest and honest friend of labor. Many politicians have professed devotion to labor, but Wilson practiced what he professed. Everybody believed him born to toil. He has literally hewn his way to the Senate along the rocky steeps of adversity. His career has had no parallel since the days of Benjamin Franklin. No slave on a Southern plantation had a harder struggle with poverty, and none overcame more difficulties to acquire a common English education. To-day Henry Wilson is not only a Senator in Congress, but the author of several standard works on political history, and a candidate of the greatest party on earth for the second office in the gift of the American people. There is not a workshop in the land, not a frontier home, not a freeman's cabin, in which Henry Wilson's nomination will not be accepted as a direct tribute to the cause of enlightened labor. Yet with all these ardent sympathies, he is neither theorist, nor International, nor Communist. He does not forget the men from whom he sprang, but he realizes that in this country at least there is not the slightest necessity for a conflict between labor and capital, and that he is the wisest statesman who can reconcile interests whose existence depends upon their co-operation."

The Boston Journal's Philadelphia special of Friday says:—

The wild enthusiasm of last night has subsided, and this morning the Republicans from all sections are engaged in bidding each other good bye [illegible]

DISASTERS TO MAINE VESSELS.

We continue to receive accounts of more shipwrecks by the recent storm, the particulars of which will be found below:

The schooner Kenduskeag, Capt. Wyatt, of and for Bangor from South Amboy, with a cargo of coal and lumber, was boarded by a sea on Wednesday morning which swept the decks and stove galley and cabin. The deck load, about seven tons of coal, was washed about the deck, to the danger of the vessel, until the bulwarks were cut away to free the decks, when the coal and lumber were washed overboard. The Captain had his ankle badly jammed in clearing the decks. In the afternoon the schooner's sails were split. She arrived at Gloucester about four o'clock on Thursday afternoon.

Schooner Julia, Perry, from Addison for New York, split foresail in the gale.

Schooner Casco Ledge, Pierce, of Yarmouth, Me., form Elizabethport for Portland with coal, lost boat and had sails split. The Mate had his foot badly jammed. The Casco Ledge arrived at Gloucester Thursday with about two and a half feet of water in hold.

Schooner Sciota, Sadler, of and for Ellsworth from Boston, lost jib and foresail in the blow. She arrived at Gloucester Friday.

Capt. David Arey of the schooner M. M. Freeman, of Rockport, Me., previously reported wrecked at Cape Ann, with the loss of a portion of her crew, floated ashore on a plank and was picked up in an exhausted condition. By the prompt efforts of people who had been attracted to the scene, he was resuscitated, and is now doing well. George Rundle, one of the crew, was also saved. The mate, Mr. Hiram Stubbs, and two seamen, names unknown, were drowned within sight of those who were powerless to save them.

The schooner Jane, of Boston, reported wrecked on Squash beach and all hands lost, was seen ashore on the bar near the lighthouse on Wednesday afternoon, but the people on the shore supposed the crew were in no danger, as they could have landed without difficulty at low tide. Contrary to expectation, however, a boat soon started from the schooner with five men in her, which had not proceeded far when it broached-to, upset, and the entire crew were thrown into the sea and lost. The life-boat was immediately manned and went to their aid, but did not succeed in saving any of the unfortunate men. The bodies had not been recovered at last accounts.

Schooner Sun of Hancock, Capt. E. W. Mosley, loaded with wood, went ashore at York, Me., in the storm of Wednesday night, June 5th and became a total wreck. The Captain and one hand only were on board, and by little short of a miracle were saved.

National Republican Nominations

FOR PRESIDENT,

Ulysses S. Grant,

OF ILLINOIS

FOR VICE-PRESIDENT,

Henry Wilson,

OF MASSACHUSETTS

"Gen Grant never has been beaten and he never will be —HORACE GREELEY

WHO NAMED THE REPUBLICAN PARTY?

There have been numerous claims to the honor of first designating the great party of freedom and equal rights by the proud title under which as the "Republican" party it has won so many triumphs for humanity. The latest claimant for this distinction is Senator Sumner, and his claim is arrogantly presented in a speech in which he intimates his desertion of the standard so gloriously inscribed, and scandalously assails the leader whom the millions of the party have so enthusiastically acclaimed as their honored chieftain. In the opening sentences of his speech Mr Sumner says

Turning back to its birth I recall a speech of my own at a State Convention in Massachusetts, as far back as September 7, 1854, where I vindicated its principles and announced its name in these words As Republicans we go forth to encounter the Oligarchs of Slavery

In view of this assumption we have been turning over the record and think we can furnish a better and an earlier answer to this interesting political query than any hitherto presented. In a report of a public meeting held in Bangor on the evening of June 2d 1854,—several months prior to Mr Sumner's speech—to express the public indignation then aroused to a fever heat by the repeal of the Missouri Compromise at the bidding of the Slave power Hon Israel Washburn Jr who then represented this District in Congress, and who stoutly fought against the iniquitous surrender to Slavery delivered a speech of great power which was reported in a condensed form in the next issue of this paper. In that speech Mr Washburn urged the imperative necessity of organizing a new party at once to combine the antagonism to the aggressions of Slavery and in that speech the name of Republican was we believe, first suggested for the new organization. As an interesting contribution to political reminiscence, we quote the concluding portion of the abstract of the speech referred to in attestation of the validity of the claim that Hon Israel Washburn, Jr of this State, was first to publicly suggest the name of our great party and that the suggestion first appeared in print in the columns of THE WHIG AND COURIER of June 3d 1854. From that time it began slowly to be taken up as is shown by Mr Sumner and others, until it was finally adopted the next winter by authority. The following is the portion of the speech alluded to

He closed by a solemn warning against the present encroachments and future designs of the Slave power in this country—and eloquently urged that all true friends of freedom and the Union must now act and refuse longer to submit to the demands of that power—that we must stand by the men who have acted and voted for freedom in this contest, of whatever party or section of the Union they may be—by Benton and Houston and other noble men of the South as well as by the incorruptible Democrats of the North—AND THUS BUILD UP A GREAT AND TRULY NATIONAL PARTY, somewhat sectional at first, perhaps, but national in the end for the noble men of the South will join us—A PARTY WHICH SHALL SUCCESSFULLY RESIST THE DESIGNS OF THE TYRANNICAL SLAVE OLIGARCHY AND SAVE THE UNION FROM ULTIMATELY BECOMING ONE BROAD DOMAIN OF SLAVERY

This great consideration now overrides all the old party divisions and effete party organizations of the country. They must give way to it—they have already given way—Men who think alike must act together. Freedom must not be less wise than Slavery and Slavery is united. EVERY TRUE "REPUBLICAN" MUST RALLY, first under the banner of REPEAL" AND THEY MUST TAKE THE FLAG IF NOT THE NAME, of that wise, conservative party of 1820 25 whose aim and purpose was —*The welfare of the* WHOLE *Union and the stainless honor of the American name*

The Belfast Journal enumerates the following as among the prominent Liberal Republicans in Maine

Hon Geo F Talbot and Hon J H Hamlin of Portland Hon J H Williams and Hon Thomas S Lang of Augusta Justices Dickerson and Danforth of the Supreme Court, Hon A D Manson and Chas Peters, Esq, of Bangor Hon F A Pike of Calais, Hon T H Cushing of Winterport True Harmon, Esq formerly Collector at Belfast. *Commercial*

This is the best showing the Democrats can make in drumming up political allies in this State and even this brief list needs revision. Hon Geo F Talbot took pains to deny that he proposed going to Cincinnati, on the eve of his sailing for Europe where he now is. Who is Hon J H Hamlin of Portland? Hon T S Lang has already complained of injustice in thus classifying his name. Judge Dickerson is a Democrat, and an Augusta gentleman writes us that the claiming of Hon J H Williams and Judge Danforth for Greeley "is simply slander." This rather reduces the roster of the Greeley Republican party in Maine and we are not sure that the remainder are properly represented

---

Our city contemporary, not being permitted to express any opinion upon the question of disbanding the Democratic party at Baltimore has taken to figuring out a victory for some unknown combination in November—It is very harmless employment and serves to keep the editor out of mischief while the party managers debate the expediency of swallowing Horace Greeley. Our formerly obstreperous neighbor presents the most remarkable instance of political smothering on record

The New York Tribune predicts that by the nomination of Henry Wilson for Vice President the State of Indiana is lost to the Republican ticket. It is to the credit of the Indiana delegation that they advocated the renomination of Mr Colfax on other grounds than local necessity, and Indiana Congressmen say that the Republican ticket in that State will not lose a single vote by the substitution of Mr Wilson for their own popular candidate

The N Y Times says "Within the last thirty-nine months the Republican Party, under President Grant, has reduced the debt about $232,000,000, ($231,945,884,) while taking off $140,000,000 of the taxes. In the same time the Tammany "rulers—the now avowed and for a long time the secret allies of Mr Greeley — stole $28,000,000 from the City Treasury. And we are asked to vote for Horace Greeley and *Honesty* in government."

The N. Y. Tribune has thrown off all disguise and bluntly calls the Republican party its foes, in this style

Our enemies are our helpers. They had heretofore carefully arranged for us the conditions of success in Pennsylvania. Now they do [illegible] in Indiana.

Massachusetts has had two Presidents, but only one Vice-President, Elbridge Gerry, who died in that office in 1814.

Sam Bowles, of the Springfield Republican, the New England Greeley organ, who was an eye-witness of the scenes in Philadelphia, seems to have been affected by the jubilant feeling to such a degree as may subject him to discipline in the glooular ranks of his own party. He writes that the Convention "is claimed by its friends and conceded by its foes to have proved a great success" "It is felt," he says, "that the Greeley movement has made but a small indentation on the party; it certainly has not broken or weakened its organization." Looking forward, he frankly admits that the Republicans have "started the campaign strongly, and they will have the strongest combination of political interests that were ever rallied to the support of a Presidential ticket," and then looking on the other side, he declares "there must be a closer combination of the opposition" than there is now to warrant the least prospect of respectable resistance

It turns out that Mr Pierpont of West Virginia, "resigned" his position as delegate in an involuntary manner. He was one of thirty delegates and alternates chosen to represent West Virginia in the Convention. There were seats for but ten. Mr Pierpont having intimated that he would not support the candidate of the Convention in certain contingencies was left out in choosing the ten. He then went home, and took with him in his own person about one tenth of the Greeley party in West Virginia

Earl Russell has withdrawn his motion for an address to the Queen for the withdrawal from the Geneva arbitration, on the reading of a letter from Minister Schenck affirming that the supplemental article to the Treaty is considered by our government as amply sufficient to exclude the indirect claims and that the article is the final settlement of such claims. Earl Russell and his associates deemed this assurance as sufficient and the debate closed

DESERTING GREELEY. The crumbling of the Greeley movement is progressing rapidly and the Tribune is fast losing the countenance of all respectable Republicans, and finds its only allies in the Tammany Democrats. Three of the most prominent members of the Greeley General Committee, in New York, Messrs. Wm H Draper, Anthony Allaire and Gen Lloyd Aspinwall, have openly withdrawn. The Tribune omits to notice the defection, but Gen Aspinwall's resignation is published in full in the other dailies. His letter concludes with these words —

If there be any set of men desirous of hampering or controlling the free will of the people, through the exercise of a power which patronage or place afford, against such all honest men should battle, but I have failed to be convinced that this indictment against the Administration has been sustained. The Cincinnati movement appears to me to have been bad in its conception and worse in its developments, and the only ground for satisfaction is that it is likely to prove a failure

However highly the candidate of the Cincinnati Convention may be esteemed as a citizen, and may have justly earned an enviable reputation for benevolence and kind heartedness certainly the facility with which he swings round the circle and indulges in extraordinary somersaults entitles him to be considered as first acrobat in the political circus

How far he may be successful in the present attempt—that of riding two horses at once—remains to be seen

MAINE DEMOCRATS AND GREELEY. We would like to have the opinion of the *Commercial* as to the reliability of the of the following statements of Mr Pillsbury, as given in a Washington special—

The Hon E F Pillsbury of Augusta, who has been three times the nominee of the Democrats of Maine for Governor of that State has written a letter to a member of Congress urging him to use what influence he possessed to secure the ratification of the Cincinnati nominations by the Baltimore Convention. He says, "The Democracy of Maine are a unit, so far as I can learn, in favor of the liberal ticket at Baltimore. If Greeley and Brown are adopted at Baltimore harmoniously, we shall see a perfect storm of enthusiasm, but if rejected, a storm of indignation from our people, and a general collapse of the party"

The N Y Tribune confesses that a bargain has been struck between the Democrats of Louisiana, the Warmouthites (who are the Tammany men of that State,) and the pretended Reformers. "The Democrats and Liberal Republican conferences," it says, "promise to result in an equitable division of the State offices between the best men of each party" "By this reasonable compromise" it adds, "the Liberal Republicans secure the solid Democratic vote of the State and a delegation to Baltimore pledged to Greeley and Brown."

Did any one ever read a more shameless confession of corrupt trafficking? The Greeley Warmouth movement in Louisiana is the precise counterpart of the Greeley Tammany movement in New York.

We copy the following pleasant paragraph from the Portland Press —

The friends of Gen S F Hersey are mentioning his name in connection with elector-at large on the Presidential ticket. There can be no better, and it needs only a suggestion to effect the nomination

Gen Barnum's meeting of Greeley soldiers which he proposed to hold in New York has been wisely abandoned to save a miserable failure. The soldiers who voted for Grant in 1868 and now propose to vote for Mr Greeley are very scattering, as General Barnum has already learned

TONNAGE OF THE PRINCIPAL AMERICAN PORTS. Returns received by the Register of the Treasury for the quarter ending March 31 1872 gives the tonnage of the five principal ports of the country exclusive of barges and canal boats, as follows

New York—Sail 606 187, steam 310 710
Boston—Sail 320,282 steam, 17,723
Philadelphia—Sail, 130 786, steam, 52,048.
San Francisco—Sail, 83,747 steam 50,511.
Baltimore—Sail, 61,124, steam, 40,747

The Albany (N Y) *Argus* (Democrat,) copies Mr Sumner's late speech, and says of it "It has the vigor of truth" If so, where does it place the Democracy? Mr Sumner in this speech says "the Democracy is dissolving, is falling apart, is loosing its vital unity, and is seasing to exist."

The New York Tribune of course defends Gov Hoffman from the grave implications upon his official conduct as Mayor

SENATOR WILSON'S NOMINATION. The Boston Advertiser's Washington special of Friday says "Senator Wilson's nomination continues to grow in strenght and favor among the republicans both within and without Congress. A beautiful bouquet graced the Senator's desk this morning, and during the day he received the personal congratulations of several of his associates who were absent yesterday. Mr. Wilson also called at the White House, and was warmly welcomed by the President, who assured him that his association on the national ticket was in every sense personally acceptable and gratifying. The Republican members of the House from the Western States expressed themselves very favorably toward Wilson, and one of the most prominent of the Indiana delegation said to-day that he did not believe the ticket would lose a vote in that State which it would have secured with Colfax in the place of Wilson. The Southern members are highly pleased with the nomination and express no doubt of its harmonizing and encouraging effects on the entire colored vote. Senator Wilson is steadily in the receipt of dispatches and letters from all parts of the country, [illegible] congratulations [illegible] to-morrow evening.

WELL DONE, OREGON! An official telegram, dated Portland, Oregon, Thursday, says "The Republicans have wiped out the Democrats, Greeleyites and all, electing their representative and a majority in both branches of the Legislature."

PALMER'S PATENT

Jacqueline Corset.

Dress Makers recommend it as being the Best Corset to Fit a Dress over, because it is cut in such a manner that the front and back seams fit like seams to a dress

It is superior to any other Corset now in use, because its peculiar style of cutting gives sufficient fullness at the bosom, without folding at the top, gradually and closely fitting to, and over the hips, is longer front and back than ordinary corsets, and in fact,

Is the Only CORSET Cut in This Form.

He came here to get encouragement to work, and would return to his own country and imitate the best qualities of the whites. There were men enough in the West to take care of themselves, and he wished the Great Father would take the military forces away and leave the Indians alone.

THE ALABAMA CONTROVERSY

MR. SCHENCK'S NOTE.

WASHINGTON, D. C., June 8. The note of Mr. Schenck which was read in the House of Lords by Earl Granville, contained these words:—

"I am now authorized, in a telegraphic dispatch received to-day from Mr. Fish, to say that the Government of the United States regards the new rule contained in the proposed article as the consideration for and to be accepted as a final settlement of the three classes of the indirect claims put forth in the case of the United States to which the Government of Great Britain have objected."

THE NOTE DISAPPROVED.

This note is not approved here. The authority of General Schenck to communicate to Lord Granville the views of his Government as to the meaning of the supplementary article was not intended to cover any written communication to help the Gladstone Ministry in their contest with their opponents in Parliament. He had been already informed that we were dealing with the British Government and not a Parliamentary opposition.

THE PRESIDENT

considers it compromising to the honor of the country to give a written pledge in advance of what the new treaty is to mean. Our Government insists that the article explains itself.

SHARP DISPATCH FROM MR. FISH.

To-day Mr. Fish telegraphed Gen. Schenck that the captious criticisms of the British Cabinet on the Senate's article were exhausting the patience of the Government and the country and were involving the chances of a settlement of the question.

NO MODIFICATION.

The new article can be ratified if submitted before the Senate adjourns on Monday, but any amendments or explanations insisted upon by Great Britain would make ratification impossible.

GRANVILLE CRITICISED.

There is much dissatisfaction on the part of Senators and Representatives over the proceedings in the House of Lords last night. They are displeased at the means resorted to by Lord Granville in crushing out the opposition by using the written pledge from the American Minister.

OUT OF PATIENCE WITH ENGLAND.

The English distrust of American good faith as expressed in the House of Lords and in the action of the English Government has given rise to considerable comment and irritation among officials here, and has had a very marked influence upon members of Congress, not at all complimentary to Great Britain.

FROM LONDON—FAVORABLE PROGRESS.

NO OFFICIAL ADVICES.

WASHINGTON, D. C., June 8. Neither the British Legation nor the Department of State has had advices from London of a decisive character concerning the additional article to the Treaty of Washington.

MINISTER SCHENCK

again telegraphs, reiterating his opinion that it will be accepted and in this the official authorities here coincide. Secretary Fish called on the President to-day and had a brief conversation on the subject.

WASHINGTON, June 9. The conference committee on the sundry civil appropriation bill has agreed upon a report as to all the amendments with the exception of that amendatory to the election enforcement act of February 28, 1871, which is the only one that endangers the passage of the bill. The report will first be made to the Senate to be acted upon there before it is sent to the House. According to present advices the last named amendment will be presented seperately to the Senate and two of the three members of the committee on the part of that body, Cole and Stevenson will recommend that the Senate recede from it. If the Senate shall do so that amendment will not again come before the House and there will then be no further obstruction to the passage of the bill; otherwise there will be a renewal of the trouble.

President Grant was at the Capitol for some time last night engaged in consultation with Senators and signing bills passed during the day. He will visit the Capitol to-morrow in company with Cabinet officers on public business.

SEIZURE OF THE "ENOLA C."

Mr. Samuel Collins, one of the charterers and crew of the fishing schooner Enola C., of Gloucester seized in Trinity Bay by cutter Stella Maria, for alleged illegal fishing arrived home at Gloucester yesterday and has sworn to an affidavit of the particulars of the seizure before Collector Babson of that port, which has been forwarded to the proper authorities at Washington.

STATEMENT.

The affidavit sets forth the following facts: That the Enola C. was at anchor, was not fishing and had not been fishing in shore. That she was boarded by the Captain of the cutter Stella Maria who engaged in friendly conversation. That Captain Cunningham asked the Captain of the cutter in regard to the Treaty, as he would not fish in shore until assured that he had a right so to do. That the Captain of the cutter replied that the Treaty had passed Parliament by a large majority and that in his opinion there would be

NO TROUBLE IN SHORE.

That the Captain of the cutter said his was not a revenue vessel but a light-house tender and had nothing to do with the fisheries. That some of the crew boarding the cutter asked what a brass gun was for on board a light-vessel and were told it was to be put on Bird Rock as a signal gun. That counting on these assurances the Enola C.,

PROCEEDED TO FISH

the next day and that the Captain of the cutter came down stream and lay in ambush as he afterwards informed them from noon until 8 o'clock in the evening, waiting for the wind to die away, so that the schooner could not escape when with three Indians and seven other white men all armed he came alongside and

BOARDED THE SCHOONER.

That he then read his commission and took charge of the vessel ordering one of his men to the wheel. That when charged with his duplicity by Captain Cunningham he replied that he had no right to give Americans information; they must look out for themselves.

THE SCHOONER

was taken to Farther Point, telegrams were exchanged with the authorities at Ottawa and the schooner was towed to Quebec by the steamer Druid.

FROM THE PLAINS.

THE SIOUX ON THE WAR PATH.

SIOUX CITY, June 8. A correspondent of the Journal, now at Fort Buford, Dakota, writes under date of June 1, that the Sioux Indians are on the war path. There is now a camp of 305 lodges rendezvoused within 10 miles of Fort Berthold and their numbers are being daily increased. It is said to be the intention of the party to attack Fort Berthold soon. They muster 2000 warriors.

DETERMINED HOSTILITY.

There seems to be a universal spirit of hostility among all the Sioux upon the Missouri. The chief of the band now near Fort Berthold made a speech on the 27th ult., telling his braves that war was declared and that every one of the Sioux chiefs would stand by the decision of the council that made the declaration.

THE ATTACK.

He further said that Fort Berthold will be the scene of the opening of hostilities, and Fort Buford will be the next to receive attention.

FORTY-SECOND CONGRESS—SECOND SESSION.

WASHINGTON, D. C., June 8.

SENATE.

Continuation of night session:—Mr. Saulsbury spoke upon the enforcement amendment when a motion to adjourn was made, which was lost.

Mr. Tipton opposed the enforcement amendment at some length.

Mr. Hamilton of Maryland, protested against such legislation. He as well as Tipton argued that under the rule excluding new legislation and amendments not germain to a bill before the Senate, this amendment ought not to be received.

Another motion to adjourn was here (3.10 A. M.) put and lost and Mr. Hamilton resumed. He contended that Maryland would endorse the Baltimore nominees, and the 4000 negro Republican votes of that State would be outvoted by white Democrats.

Messrs. Stevenson, Edmunds and Stockton continued the discussion.

At 5.20 o'clock A. M. Mr. Holt suggested a recess, but it was not entertained.

At 6.55 the question to indefinitely postpone the bill was lost.

Mr. Sumner sent up the Supplementary Civil Rights Bill as an amendment, but the chair ruled it out of order.

Mr. Sumner appealed, and his appeal was tabled.

Mr. Kellogg's enforcement amendment was then adopted—yeas, 31; nays, 12.

Several amendments were offered but tabled.

An amendment appropriating $50,000 to furnish the new postoffice at Boston was adopted, and the bill was then passed—yeas, 31; nays, 10.

A Conference Committee on the bill was then appointed and at 9 A. M. the Senate adjourned till 6 o'clock this evening.

EVENING SESSION—6 P. M.

Mr. Anthony was chosen President pro tem.

A resolution of thanks to Vice President Colfax, for the courtesy, dignity, ability and impartiality exhibited by him as presiding officer, was unanimously passed.

A bill refunding the duties on goods in bond Aug. 1st, 1872, was passed.

The memorial of Anna Ella Carroll, asking compensation for valuable information furnished the War Department during the war, was ordered to be printed.

A bill authorizing the President to appoint Commissioners to the Vienna International exhibition of 1873, was passed.

The Conference Committee reported the river and harbor bill.

Messrs. Spencer and Alcorn opposed the adoption of the report, both opposing the reduction of the appropriation for Mobile harbor.

Mr. Cole said that the Committee evidently devoted their principal attention to the harbors of Michigan.

The report was nonconcurred in.

A resolution to pay Senator Vickers for the year commencing March 4th, 1867, passed.

After some debate on the Anacosta railroad bill, without action, the Senate went into executive session and adjourned to nine o'clock Monday morning.

HOUSE.

The bill increasing the pensions for disabilities was passed.

A bill removing the political disabilities of C. B. Memminger and several Virginians, was passed.

A bill was passed restoring to the market all lands not disposed of in the Ottawa and Chippewa reservation.

The amendments of the Senate to the sundry civil appropriation bill having been sent to the House, Mr. Garfield of Ohio, moved that it be referred to the Com. on Appropriations. The motion was opposed by Mr. Brooks on the ground that it would be facilitating the passage of the bill with the objectionable amendment however, as the enforcement act. Mr. Garfield argued that this action would not place the bill in any more favorable position or deprive the minority of any of their rights. The Speaker, however, in reply to a question stated that the bill was now on the Speaker's table and could not be reached without a two-thirds majority while it required only a majority vote to pass it after it came from the Com. on Appropriations.

Various propositions and suggestions were made, but no compromise was reached and the matter was allowed to go over for the present without action.

Several propositions relative to the disposing of sundry civil appropriation bills were made, but rejected.

Mr. Garfield of Ohio, moved to suspend the rules and refer the bill to the Appropriation Committee. Lost; less than two-thirds voting in the affirmative.

The House then proceeded to the regular order of business. A bill relative to soldiers was partially read through when it was discovered that this was a day for private bills and a report on a private bill was read till the expiration of the morning hour.

Mr. Garfield moved to proceed to the business on the Speaker's table. Motions for a recess and to adjourn with the demands for yeas and nays and other filibustering movements to prevent reaching the sundry civil appropriation bill followed.

After wasting another hour on yeas and nays Mr. Garfield of Ohio, moved a non-concurrence in all the Senate's amendments and the referring of them to a Conference Committee.

Mr. Campbell of Ohio, favored this.

Mr. Beck, of Ky., opposed it.

Mr. Farnsworth favored it.

Mr. Garfield's motion failed and fillibustering was again resorted to by dilatory motions on which the yeas and nays were called.

A motion for a recess was agreed to by a vote by tellers when the yeas and nays were called for and the motion to adjourn was lost 40 to 108.

The Conference report on the bill to pay claims allowed by the Southern Claims Commission was made and agreed to.

The report of the Committee on investigation of Indian frauds was ordered to be printed.

The Conference report on the river and harbor appropriation bill was agreed to.

The Conference report on the fortification appropriation bill was agreed to.

Fillibustering continued until 9:50, when Mr. Garfield moved to suspend the rules and adopt a resolution non-concurring in the Senate amendments to the sundry civil appropriation bills, agreeing to leave the same to a Conference Committee and then take a recess till 8 o'clock Monday morning. Agreed to.

Messrs. Garfield, Palmer of Iowa, and Niblack of Ind., were appointed as a Conference Committee.

At 10 o'clock the House took a recess till 8 o'clock Monday morning.

BANGOR MARKET.

SATURDAY, June 8, 1872.

FLOUR. In consequence of an even Western market there is not much change in prices to note here, the market being pretty well stocked and fair to good extras are selling at $9.00 to $9.50 and 10.00, and the best extras, including what would be called fancy brands, at $11.00, to $12.00 and 11.00 per bbl, while the highest or best grades of flour, are retailed at $14.00 to $14.50.

CORN is worth from 82 to 87 cents, per bushel, according as it is sold, either by measure or weight.

MEAL. Corn meal 80 to 85 cents and Rye do $1,20 per bushel of 50 lbs.

SEEDS. Herds grass $3,50 to 4,00 per bushel; Red top $1,50 per bushel; Northern clover 22, Vermont 12 and Western 11 cents per lb. Foul Meadow seed $3 00 per bushel.

SALT Coarse salt is worth from 50 to 55 cents per bushel, and Bangor butter salt (20 lb boxes) $2 per hundred.

LIME $1.25 to $1,30 per cask.

PLASTER, $1,25 per bbl. or $6,00 per ton.

CEMENT $2,15 to 2,25 per cask.

BRICKS Merchantable bricks, delivered at the wharves $10,50 per M.

PORK. Boston packed No 1 $20,00 and No 2 $18,50 to $19,00 per bbl.

LARD in tierces 10 to 10½; tubs 11 to 12 and tins 13 to 14 cents per pound.

SMOKED FISH, St John alewives $1,30, and Penobscot river do $1,30 to $1.40 per hundred.

PRODUCE MARKET.

The following report is obtained by particular observation on the market and the quotations are the prices paid for produce from the country teams this day, or about the average for the week past:

HAY. The decline in loose hay has been somewhat noticed on the market this week, as the best quality has sold at $28 to to $30 per ton, and some of the inferior grades such as swale or meadow hay has sold as low as $13 to $15 per ton. Pressed hay comes into market by rail, in large supply and the best qualities is retailed from the storehouses at $28 to $32 per ton.

STRAW. Loose straw is no at all plenty on the market, and sells at $14 to $16, and occasionally a load at $18 per ton.

OATS sell quick at 65 to 68 cents per bushel.

BARLEY is now in demand on the market at 90 cents to $1,00. So much rain this spring causes late farming, and barley is considered the safest for a late crop of grain.

BEANS. There are but few beans of any kind coming into market now and we quote yellow eyes as selling at $3,50 to $3,65, and occasionally an extra lot at $3,75 per bushel. Pea beans are worth $3,75 to $3,87½ per bushel.

BUTTER is not being brought into market very plenty and we quote the range of price for the week past at 20 to 22 and 25 cents per pound according to quality, and with the prospect of an abundance of feed, we predict still lower prices.

EGGS have sold current during the week at 16 cents per dozen—the Boston market report quoting sales of Eastern eggs at the same time at 15 to 17 and 18 cents per dozen.

POTATOES come in quite plenty, even at the low prices at which they are now selling from 35 to 36 cents per bushel.

FRESH MEATS. Round hogs seem to be in better demand this week, selling at 8 to 8½ and very extra ones at 9 cents per pound.

WOOL, &c. The best quality of washed wool is worth 65 cents per pound, and wool skins sell according to size and quality at $2,50 to $3,50 and $4,00 each. Veal skins sell at 20 cents and Hides at 7 to 7½ cents per pound.

—We are indebted to Rev. C. H. Wheeler, formerly of this city but now a missionary in Turkey, for a copy of the "Harpoot News," published at the Mission. This first number of a Turkish newspaper is printed on blue-tinted note paper, and is quite a curiosity.

—The Argus complains because "Portland is left in total darkness for about one hour in the morning by the putting out of the street lamps earlier than they should be." What would the writer do here, where the street lights are extinguished between 11 and 12 o'clock P. M.?

OPERA IN BANGOR. Maritana, an opera by Wallace, is being performed at Norombega Hall the latter part of this week by local stars, including Miss Egery, Mr. Laughton, Miss Wingate and others. The part of Maritana is assumed by Miss Ross and the affair is a great success.—St. John Telegraph, 8th.

—The first out-door religious meeting of the season was held on the platform of the E. & N. A. depot at the foot of Exchange-st., at half-past 4 o'clock yesterday afternoon, and was attended by a large number of people many of whom are rarely seen inside a church. The services were conducted by Rev. Messrs. Smyth and Porter.

—The flag-raising announced for Saturday evening but prevented by the violent storm, will take place at 7 o'clock this evening, when a large and handsome flag, bearing the names of GRANT and WILSON will be raised over West Market Square between Wheelwright, Clark & Co.'s and Smith's blocks. The Bangor Cornet Band will be present and play some of their best music.

METHODIST CONFERENCE. Free return tickets will be given to those passing over the railroads to attend the East Maine Conference which commences its next session at Orono on Wednesday. The mornings will be devoted to Conference business and the afternoons and evenings to Sermons and addresses. Bishop E. G. Andrews, D. D., will preside, and there will be ordination services on the Sabbath and Sermons by Bishops Andrews and Haven.

GREAT SALE OF STOCKS AND TIMBER LAND. At 10 o'clock next Thursday forenoon R. S. Prescott, the well known auctioneer, will sell at public auction at the City Hall in this city 25 shares E. & N. Railway, 20 shares B. & P. Railroad and 4 shares Penobscot County Fair Ground Company, and about 97,000 acres of timber land situated in Aroostook, Penobscot, Piscataquis and Somerset counties and fully described in advertisement in another column—the whole belonging to the estate of the late Hon. S. H. Dale, and sold by order of the Administrators.

MINSTRELS. The Royal Christy Minstrels and brass band announce two entertainments in Norombega Hall on Wednesday and Thursday evenings next. In addition to the usual features of such entertainments the management have secured the services of Harry Leslie, the celebrated tight rope walker, who recently created such a sensation at Niagara, and he will give a public exhibition of his wonderful feats on a rope stretched to the top of the hall, at half past six on each evening of the company's performance.

—At midnight last night a reporter from this paper visited Daniel Hinds, the young man who was so terribly mangled by a circular saw in Morse's mill on Wednesday last, and found him soundly sleeping. His watchers informed our reporter that young Hinds' condition was not apparently changed, and that strong hopes were entertained for his recovery. It seems wonderful that a man mutilated as he was should survive even so long, and his recovery would be little short of a miracle.

PATENTS. Issued to Maine inventors, for the week ending June 4th, 1872, and each bearing that date. Reported for the Whig & Courier by Wm. F. Seavey, Solicitor of Patents, Bangor:—

No. 127,462—T. M. Chapman, Oldtown, Saw Filing Machine.

No. 127,645—E. P. Roche, Bath, Chafe Iron.

Whole number of Patents issued for the week, 268, together with 11 Re-issues, 6 Extensions, 28 Designs, and 9 Trade-marks.

THE REPUBLICAN STATE CONVENTION—SPECIAL TRAIN. To accommodate delegates and others desirous of attending the Republican State Convention in Lewiston on Thursday next, the Maine Central Railroad Co. will run a special train from this city on that day, leaving here at half-past 5 o'clock A. M., and leaving Lewiston to return at 4 o'clock P. M., or after the close of the convention. The trains will stop at all the intermediate stations each way, and but one fare will be charged the round trip.

ONE MORE. Friday night a gentleman who boards at the Franklin House returned to that hotel after the opera and was going up to his room when he noticed a strong scent of gas in one of the upper halls. Calling the night porter, they investigated the gas and found the gas escaping from a room occupied by a gentleman, and the "stand-sleeper," It was found impossible to arouse him by knocking or shaking, so the door was kicked in and the almost insensible sleeper shaken up. His only remark, when asked why he blew out the gas, was—"Well, how in thunder *would* you put it out?"

SEIZURES. The police on Saturday seized small quantities of intoxicating liquors in two store houses on Broad-st., and also on the premises of John McGuire on the same street and Martin Haverty near the steamboat landing. They also seized two half-barrels of ale packed in flour barrels, at the steamboat wharf, and in the evening the City Marshal captured half-a-dozen jugs full of different liquors, which a Frenchman was taking to Basin Mills. We hear also, that several packages of liquors were captured the same evening at or near Basin Mills.

E. & N. A. NEW TIME TABLE. A new time table goes into effect on the E. & N. A. Railway Wednesday of this week. The express train for St. John will leave this city at 7.50 o'clock A. M., the same as now, but the running time will be shortened and it will cross the express from St. John at Vanceboro' at 1.10 P. M., instead of at Wilderness station at 1.19 as at present. The morning accommodation will leave Mattawamkeag at 5 o'clock A. M., ten minutes later than formerly, and the evening accommodation from this city will reach that place ten minutes earlier—at 10.40 P. M. Two trains will be run to Stillwater daily, leaving here at 11 A. M. and 5.30 P. M., and leaving Stillwater at 7.45 A. M. and 2 P. M., to arrive here at 8.50 A. M. and 3 P. M.

KNIGHTS TEMPLAR EXCURSION. The Springfield (Mass.) Commandery of Knights Templar will take the steamer for this city at Boston this afternoon, and arrive here tomorrow at the usual time. From this city they will proceed by special train over the E. & N. A. Railway to St. John, where they will be received by the Knights Templar of that city and escorted to the Victoria Hotel, which is to be their headquarters during their stay. On Wednesday they will visit such points of interest in St. John as an early walk, or drive will admit of, and then take the steamer Rothesay for a trip up river, which will take them about to Long Island. On board the steamer a sumptuous dinner will be provided and enjoyed and the excursion will return to the city in time to attend the evening performance at the Academy of Music. Thursday morning there will be an appropriate parting with the visitors by the members of the craft and the visiting Commandery will start on their return.

THE CARY CONCERT. We would again remind our citizens of the unusually fine array of talent presented at the Cary concert to-morrow evening. It will probably be long before we shall again have so favorable an opportunity of hearing the eminent Prima Donna Miss Annie Louise Cary, whose voice for richness, purity and rare compass is pronounced by the first musical critics of Europe and America, to be unequalled by any contralto now singing in concert or opera. Miss Cary, who is a native of Maine, in company with several other artists, well known to the public, has generously lent her aid to a series of concerts given in behalf of the Maine General Hospital, half the proceeds of each entertainment being devoted to that institution, and we trust that this generosity will be appreciated as it should be by our citizens, who can, while enjoying a first class concert, contribute to the fund of a most deserving charity. The Hospital is an institution we all ought to take a deep interest in, on the score of its broad philanthropy, and while we have the good example of Miss Cary and her companions before us, we should emulate their exertions and make the concert a grand success.

THE JAMESON GUARDS' EXCURSION. A committee of the Jameson Guards of this city visited Boston last week to meet a committee from the Wooldredge Cadets for the perfection of arrangements for the excursion of the Guards to Lynn the last of this month, and the following programme was decided upon: The Guards will leave this city at 11 o'clock on Monday, 24th inst., on one of the Sanford steamers and will arrive in Boston the next morning. After breakfasting on the boat, they will be met by a committee of the Cadets and take the cars for Lynn, arriving a little before noon. After a short march under the escort of the Cadets, through the principal streets, both companies will sit down to a public dinner, at which the members of the City Government and other invited guests will be present. In the evening some entertainment will be provided, probably a grand ball, and the next day, Wednesday, 26th, both companies will go to Nahant, where they will dine, and then return at 2 P. M. and take the train for Boston. The Guards will be received in Boston by the Montgomery Light Guard and escorted to the armory of that company on Essex street, which has been kindly tendered our company as headquarters during their stay. The Jameson Guards will remain in Boston over night and will return by Sanford steamer the next day, 27th. Arrangements are in progress for the admission of the Guards and the Bangor Cornet Band, which will accompany them on the trip, to the Coliseum, where the Jubilee will be "in full blast."

THE OPERA. Notwithstanding the heavy rain which fell all Saturday afternoon, a very good audience attended the third performance of "Maritana," in Norombega Hall, and if the hearty applause with which each soloist was greeted may be taken as an index, every one present thoroughly enjoyed it. To our mind, this performance was the best of the three, the ladies and gentlemen in the cast taking their parts with more spirit and freedom than on the two previous evenings—the assurance that there was no possibility of failure doubtless relieving them of much anxiety, and allowing them to devote their whole energies to the characters they were personating. Each performance has thus far been better than the preceding, and we may look for a rich feast this evening, when, at the request of a large number of our prominent citizens, the opera will be repeated. This will positively be the last performance in this city, the hall being engaged by other parties for the remainder of the week, and we hope our citizens will give these talented young ladies and gentlemen, who have labored so long and earnestly to present the grand opera for the first time in Bangor, a crowded house that shall abundantly reward their arduous and deserving efforts. The sale of tickets with reserved seats for this evening's performance commences at Bugbee & Co.'s book store this morning, and we have no doubt there will be a demand for them exceeding even that of last week. The admirable arrangement of the scenery and the clear voices of the vocalists render desirable even the seats in the extreme rear part of the hall, and those desirous of attending need not be discouraged if they are unable to procure positions in the front or the middle of the auditorum. We have one suggestion to make to people who wish to leave before the end of the opera, which is—Don't disturb the closing aria and chorus; if you must go out of the hall before the piece is concluded, do so before the last act commences, that those who come to listen to the superb music may not be defrauded of their right to hear it from overture to finale.

BUSINESS ITEMS.

TOURISTS WHO INTEND VISITING THE White Mountains [illegible] fort and [illegible] in [illegible] five proof safe, for the preservation of such valuables as may be intrusted to their care.—

"CAN'T DO WITHOUT IT." This is what the stage and horse car companies, livery stable keepers, members of the turf, and all grooms and trainers say of the MUSTANG LINIMENT. They "can't do without it." And why? Because it infallibly reduces the external swellings, &c., which, under various names, impair the usefulness and value of the king of quadrupeds, and also because, for sprains, strains, galls and other injuries to which horse-flesh is liable, it is the most trustworthy in the market. Yet these recommendations comprise only a portion of its claims to public confidence. During a period of more than sixteen years, it has been recognized as a specific for many of the most agonizing disorders which afflict the human family—such as rheumatism, gout, neuralgia, lumbago, ticdoloreux, sore throat, earache, toothache; and likewise as a peerless application for cuts, bruises, burns and scalds.

DR. FLINT'S CELEBRATED QUAKER BITTERS are acknowledged to be the greatest Blood Purifier known to the medical fraternity, and as such are recommended for all diseases arising from an impure state of the blood, they remove the cause, invigorate the entire system, and consequently effect a permanent cure.

Mr. H. C. Cross who is the general agent for the United States, has been eminently successful in placing the goods upon the market, and the immense sale for the past year, stands without a parallel in the history of proprietary medicines. ju10 1td&w23

Were man to conform more to the laws of health and of nature, and be less addicted to the gratification of his passions, it would not be necessary to advertise Fellows' Compound Syrup of Hypophosphites as a restorative for the powers of the brain and nervous system, while the world's progress in enlightenment would indeed be marvellous.

Can secure the present high premium thereon, and continue to hold thoroughly first class Securities, by *exchanging* their U. S. Bonds for State of Maine, City of Bangor, or first class First Mortgage Railroad Bonds.

Bonds of Cities and Towns in Maine and other New England States are strong and secure beyond all question—being constituted a lien upon ALL property, real and personal,—in the Cities and Towns legally issuing such Bonds.

First Mortgage Bonds for a moderate amount upon completed Trunk lines of Railway,—whose business is profitable and increasing, are deemed among the very safest and best investment securities, and are continually sought after, both in this country and in Europe, by the most conservative investors. They are both well secured and profitable.

We offer for sale only such Bonds, as, after thorough examination, we deem in every respect safe and desirable.

The highest market price allowed for Government Bonds in exchange for City, Town, and R. R. Bonds, (which latter can be bought at less than par, and yield from 7 to 9 per Interest.)

THE OLD MEN'S GRANT MEETING.

BY JOHN G. SAXE.

Well, wife, we've had a meetin' at the school house in the hall;
And I was chosen chairman to keep the old men still.
But I found I couldn't do it, each man down his own soul'd plant,
And shout with all the voice he had, "I'm goin' in for Grant."

We talked about the four past years, what great things had been done;
How the nation's debt had melted like the snow before the sun,
We said, to keep it meltin', do a better thing we can't,
Than to stick and hang together, and all go in for Grant.

We then looked through our spectacles upon the naked facts,
Then drew the veil of charity o'er giant Sumner's acts,
We said, "We like you Sumner, but go your way we can't"—
Then made the school house echo with a rousing shout for Grant.

We didn't have much charity for Trumbull or for Schurz;
They stand around that party gate, a pair of snarling curs.
Their speeches cannot harm us nor make Grant, too, their mark
He's an old Galena tanner and knows how to handle bark.

We talked about Grant's smokin'—we thought it no great sin;
To vote that out of office, we might vote a worse one in
And seein' we were smokers, 'twouldn't do for us to rant,
So we lit our pipes together and smoked the health of Grant

In the days of the rebellion none of us could go and fight;
But we read from morn till evening how he battled for the right.
He has been the nation's servant in the days of peace and war,
And treason melts before him like the smoke of his cigar

After I'd adjourned the meetin' I give each a friendly grip;
We, every one, determined to stand by the war tried ship;
We will not topple over, we will not even slant,
But put our toes down good and strong, and stand up straight for Grant.

DENTAL CARD.

Dr. J. F. BABCOCK

Surgeon Dentist,

Nos. 2 & 3 Kenduskeag Block.

Takes much pleasure in informing the public that, since the 1st of September, 1871, he has permanently saved from immediate extraction, *over two hundred Teeth*, which were aching in all degrees of intensity—teeth which it has been heretofore considered could only obtain relief through the aid of the Forceps. I continue to urge the necessity of more care being devoted to the *natural* teeth, and that with many, the contingency of being forced to wear artificial substitutes be viewed with less complacency. To those who have read my former advertisements upon this subject, with any skepticism whatever, (and I am aware there were many), I refer them to the following testimonials, which are a few among many.

From T. G. Stickney, Esq.

Having a tooth which was aching most severely I applied to Dr. Babcock for relief, which he afforded me almost immediately, much to my satisfaction.

From J. O. B. Darling, Esq.

I take pleasure in saying that Dr. Babcock has succeeded in curing an ulcerated tooth for me which I had believed to be past redemption.

From General Daniel White.

Dr. Babcock has effectually cured a badly aching tooth for me by a short course of treatment which had the further merit of being painless. Said tooth was in a state of ulceration, and very much decayed indeed, but is now as good as any I possess. I would advise the skeptical to try for themselves.

From Ruel W. Kimball, firm of Kimball & Sanford.

Dr. Babcock has treated and permanently saved two aching teeth for me, besides filling and saving several others which I had neglected, believing that they were too badly decayed to be filled, and that extraction was the only remedy, whereas I have them now apparently as serviceable as any I possess. I cannot too highly recommend Dr. Babcock as a dentist since his efforts are earnestly directed towards saving the natural teeth from that wholesale extraction so generally practiced.

From Mr. F. A. Woodbury, with B. F. Bradbury.

Having a root of a front tooth in my mouth which was sore and bad by ulceration, I applied to Dr. Babcock for its extraction. Much to my surprise he asked to be allowed to save it. As it was nothing but a root barely protruding from the gum, I naturally felt very skeptical. The result was, however, that he cured the abscess and built upon the root a solid gold crown, this latter operation occupying, some nine hours. This was several months since, and it continues to give me great satisfaction since. I use it just exactly as much as I would were it in its original state.

From Mr. F. A. Sawyer, with O. M. Brown.

I cheerfully testify that Dr. Babcock has saved an aching tooth for me which at the time of my application to him was giving me most excruciating pain, and had been for some time. My face was swollen to twice its natural size; the tooth was loose and matter oozing from the gum; being a back tooth made it all the more difficult to treat, yet I have it now (six months later) as sound as any in my mouth.

From Mr. George A. Kirkpatrick, with S. B. Fifield.

Dr. Babcock has in a very short course of treatment thoroughly relieved, and restored to its original healthy state, a tooth which had for some time been causing me intense pain. I cordially recommend him as a dentist who can save an aching tooth.

It would give me pleasure to show other testimonials to any who may desire, if they will call at my office. I have adopted this somewhat extraordinary method of advertising, from the fact that many deny the ability, not of myself merely, but of any dentist, to save an aching tooth, whereas in large cities, and by graduates of reputable dental colleges everywhere their salvation is far more common than their extraction. So true is this that Professor Atkinson of New York has recently publicly declared, and I am quoting his exact language: "It is a sin and a shame ever to extract a tooth," but which assertion I frankly admit, I cannot wholly endorse, since there are diseases of the teeth, such for instance, as exostocis or enlargement of the root, which will yield only to extraction; but such instances are so extremely rare that I have never encountered but two or three. The ordinary diseases of the teeth are all susceptible of an absolute cure.

1st MORTGAGE BONDS.

Issue Only $18,500 per Mile.

THE ROAD NOW EARNING NET, NEARLY DOUBLE ITS ENTIRE INTEREST OBLIGATIONS.

THE LEADING POINTS IN RELATION TO THESE BONDS ARE AS FOLLOWS:

1st. The Stockholders have built a first class road and equipped it in a first class manner, *mainly with their own money*.

2d. They have built their road through one of the richest portions of the State, where all the old roads into Chicago are earning over $10,000 per mile per annum, and are paying large and regular dividends.

3d. They have built the shortest road to the celebrated Block Coal Mines, whose products have large and increasing market in Chicago, in the manufacture of iron, as well as for domestic uses.

4th. The road is already earning so large an excess of its interest liability that its bonds are safe beyond contingency.

5th. The amount of the mortgage is very moderate, being only about $18,500 per mile.

6th. While Railroad Bonds may be plenty, those upon profitable lines, and for so small an amount, are seldom in the market.

7th. Over $1,200,000 of these bonds have been sold in a few weeks to Trust Companies, Savings Banks, trustees of estates, and the most careful private investors, and but a small amount remains, for which early application should be made.

8th. That as only a small amount remains unsold, parties who want them should make immediate application.

The Bonds are for $1,000 each, have forty years to run, and bear interest at the rate of 7 per cent. per annum, payable on the first of April and October, both principal and interest being payable in gold in New York.

We do not hesitate to recommend these Bonds as unusually safe. They are attended with none of the uncertainties of projected enterprises, and the prompt payment of the interest, and the final payment of the principal, are as certain as any future financial event can well be.

This Road, 92 miles long, affords the shortest existing outlet to Chicago, Toledo, Detroit, Fort Wayne, Logansport, and intermediate points for the celebrated Block and Bituminous Coals of Parke County, as also, for the large surplus products of the rich agricultural and mineral sections of the State which it traverses.

STANDARD

SECURITY

We are selling at par and accrued interest, and strongly recommend as a safe and profitable investment, the First Mortgage 7.30 Gold Bonds of the Northern Pacific Railroad. At the present gold premium they yield 8⅛ per cent. interest—over one-third more than United States 5-20's. Their elements of strength and safety are the following:

I. They are the standard obligation of a strong corporation, which represents in its Shareholders and Managers large capital and railroad experience, and is engaged in prosecuting a business enterprise whose great usefulness and solid success are not matters of doubt.

II. They are a first mortgage on the Road, its Right of Way, Rolling Stock, Telegraph Line, Equipments and Franchises.

III. They are a first lien upon the Traffic or net Earnings of the Road. The net receipts of the first Trans-continental railroad, in the second year after completion, and mainly from Local Business, were equal to nine per cent. on the total estimated cost of the Northern Pacific Road.

IV. They are a First and Only Mortgage on a Government Grant of Land, which consists of 12,800 acres for each mile of Road through the States of Wisconsin and Minnesota, and 25,600 acres per mile through the Territories of Dakota, Montana, Idaho and Washington. In average fertility of soil, healthfulness and mildness of climate, diversity and extent of resources, the belt of country comprising this grant is such as to render the lands very valuable, and insure their speedy sale and cultivation.—Sold at the average price realized by other land grant roads, the real estate endowment of the Northern Pacific Company will produce more than three times the issue of bonds per mile.

The Company is now offering for sale to settlers and Colonies, a portion of its valuable land Grant in Minnesota, and a large area on the Pacific coast will soon be placed on the market. The offered Lands are selling readily, and henceforward the Company will realize a large yearly income from this source. The proceeds of land sales constitute a SINKING FUND for the retirement of the First Mortgage Bonds, and the Bonds are at all times convertible at 1.10 into the Company's lands at market prices.

All marketable stocks and bonds will be received (by express or otherwise) at current prices in exchange for Northern Pacific 7-30's, without expense to the investor. Pamphlets and full information will be furnished on application.
